

## We Create

Sometimes we whisper, sometimes we sing,  
Sometimes we think not anything.  
Sometimes we like to stand and stare,  
And feel we have not one single care.

In our lives we must get to know  
What makes happenings come or go.  
You see the thing that is so great  
Is all you experience ~ you create!

So keep in mind what thoughts you think.  
Make sure not to think ~ ones that stink!!!  
Think of things you love to do,  
And all these things will come to you.
