

Paradox

Is there truth in Paradox?
The answer is somewhat unorthodox!
Because the answer can be "yes"
And also "No" - seems like a mess!!

You see, life is a test for all who take part.
You are given a mind and you are given a heart.
And time is an illusion, but it gives you a measure,
You can make your life hell, but it can be a pleasure!!

Paradoxes are confusing, it must be said.
Sometimes they are truth, sometimes they are misread.
When they seem absurd but at the same time seem true,
This is likely when they are true for you!

To resolve a Paradox, you need to find unity.
It's time to create a spiritual court of equity.
And use your Free Will to access your choice point,
Until all aspects within you soon become joint.

Now is the time to become FREE,
Open your heart and mind to see
That when you're in flow, there's no Paradox,
And nothing in life is ever orthodox!!!!
